

2018 iPhone Xs Max Review: The Best iPhone Yet? | The Verge
The iPhone Xs Max is the largest iPhone ever, with a 6.5-inch Super Retina display. It features a triple-camera system, a new A12 Bionic chip, and a stainless steel finish. The phone is available in three colors: Silver, Space Gray, and Gold. The Xs Max is a significant upgrade from the iPhone X, offering a larger screen and improved performance. The triple-camera system is a major highlight, providing a new level of detail and depth in photos. The A12 Bionic chip is the most powerful mobile processor ever, enabling faster app loading and smoother multitasking. The stainless steel finish is a premium material that adds to the phone's durability and aesthetic appeal. The Xs Max is a top-tier smartphone that offers the best of both worlds: a large screen and powerful performance.

iPhone 8 vs iPhone 7: Which is the Better Buy? | TechRadar
The iPhone 8 is a significant upgrade from the iPhone 7, offering a larger screen, a new camera system, and a new A11 Bionic chip. The iPhone 7 is still a great phone, but the iPhone 8 is the better choice for those looking for a new phone. The iPhone 8 features a 4.7-inch Retina HD display, which is larger than the iPhone 7's 4.7-inch display. The new camera system includes a dual-lens system with a wide-angle lens and a telephoto lens, providing a new level of detail and depth in photos. The A11 Bionic chip is the most powerful mobile processor ever, enabling faster app loading and smoother multitasking. The iPhone 8 is available in three colors: Silver, Space Gray, and Gold. The iPhone 7 is still a great phone, but the iPhone 8 is the better choice for those looking for a new phone.
